

Cooking Club

Each Friday afternoon we have a Cooking Club available for the children. This is a great way to introduce new foods and get children involved in a hands-on experience. Cooking encourages social skills, communication, fine motor skills and math concepts. The children look forward to this activity each week!

Kindness Matters

Acts of kindness can make the world a happier place for everyone. They can boost feelings of confidence, being in control, happiness, and optimism. They may also encourage others to repeat the good deeds they've experienced themselves – contributing to a more positive community.

The benefits of helping others can last long after the act itself, for those who offer kindness, and those who benefit. This, in turn, can improve our self-esteem.

Acts of Kindness can start by individual commitment to showing kindness in our words and our actions.

Evidence shows that being kind really does improve your wellbeing!
